Install it on Windows and Linux

A first of a kind SCADA reporting application that is OS independent.

Browser Based Access to the Data

Decision makers can generate reports without installing the application.

Collate the Information in Email

Schedule Excel Reports generation and deliver them to selected users.

TESTIMONIAL

Akhil Bahale
System Integrator

Sterling Electricals & Technologies

As early adapters, we have seen Report Tactix evolve into a fantastic tool for SCADA reporting. It has helped us deliver customized reports to the customers with significant reduction in the implementation time. An easy to use GUI, Query Editor and Report Scheduler are the stand out features of the product. We highly recommend Report Tactix as a System Integrator.
